GP ASSOCIATE UNIVERSITY HEALTH SERVICE

Have you ever considered working in Student Health?
University Health Service has GP vacancies

Working with young adults is a rewarding and fascinating experience, with the opportunity to develop new knowledge & skills in managing complex mental health, eating disorders, gender dysphoria, complex contraception presentations and sexual health. If you are interested in making a difference to young people and would like to help our patients manage their health and wellbeing to allow them to succeed academically and beyond, then we have the ideal post for you.

We have job opportunities for Associate GPs (similar to Salaried GPs, offering clinical sessions and with the potential for some clinical leadership work), and GP Principals. Our GP Principals (GPPs) are salaried to the University of Sheffield while offering a similar role to that of a GP Partner, holding the NHS PMS contract and leading the practice, without the associated responsibility and liability of running a business. As a GPP you will offer clinical sessions as well as having dedicated management sessions in which to deliver your leadership role.

There is dedicated time for administrative tasks and no home visits. We offer a mix of face to face and telephone consultations, and we can offer flexibility in the number of sessions and days worked.

We are a single practice in our PCN. Our clinical team consists of GPPs, GPAs, ANPs, PNs, TNA/NAs, HCAs as well as pharmacists, First Contact Physiotherapists, a Social Prescriber, and we are involved in a dedicated student Mental Health Transformation programme which consists of specialist Mental Health practitioners. We also work collaboratively with other Student Support Services teams, in particular University Counselling Service, Student Access to Mental Health Service, Dyslexia and Disability Service, and the Wellbeing Service.

There is in-house training, funding for PDP, and opportunities to develop in new areas. We are happy to provide a supported role for newly qualified GPs and would encourage and support new GPs in joining the 2-year Fellowship in General Practice, to include the development of projects within the practice or PCN.

We are a supportive friendly group that has lunch and coffee together most days and meets up once a fortnight for a clinical governance meeting.

Come and meet us! We are looking for someone who wants to be part of a great clinical team to provide excellent patient care to young people. We would love to show you round the practice and introduce you to the unique & rewarding world of student health. We are based in a large modern building near Sheffield Student Union. We are part of the university and therefore benefit from TUoS terms and conditions. Contact our Practice Manager Barbara Graham on b.graham@sheffield.ac.uk or 0114 2222102 to arrange an informal visit. Please see our job advert at The University of Sheffield jobs page to apply.
